

NEW CUSTOMER ROADMAP

Thank you for choosing Lexipol's Cordico wellness solution!

Refer to this document for the app build timeline & what to expect. Our professional services team will begin your implementation process within two weeks of your contract start date. We want to ensure a quick yet thorough process to get your users the most app usage during your contract period.

1

Identify & Select Your Wellness Liaison

To set your organization up for success in developing its wellness program, you will need to select a Wellness Liaison. This will be a person that coordinates both internally within the organization and with Lexipol around the wellness app.

[Choosing a Wellness Liaison](#)

2

Discovery Meeting

Your Implementation Specialist will go over the app build process, what standard and custom content the app has to offer, action items and next steps.

3

App Build & Rollout Strategies Meeting

Your Implementation Specialist will provide an update on the status of your app build, as well as discuss rollout strategies that can be used when deploying the app to your organization.

4

Kick-off Meeting

Your Implementation Specialist will demonstrate a live walkthrough of the app and allow time for requested edits to be made. You will also be trained on the Cordico Wellness Console, which will give you more control and autonomy over your organization's Cordico app.

5

Rollout Planning Meeting

You will be introduced to your Customer Success Manager, who will be your long-term point of contact. This meeting will also be used to discuss and solidify an app rollout plan that is customized for your organization!
